STUDENTS FROM PREVIOUS INTRODUCTORY COURSES CAN JOIN FOR FREE**

**PLEASE CLICK [HERE](#) TO REGISTER**

As our lives are affected by social isolation measures and we spend more time inside and online, maybe it's a good opportunity to learn about homeopathy, a two hundred years old science that has successfully saved lives in numerous pandemics and is used currently by over two hundred million people around the world.

Homeopathy is safe, non-suppressive, and balances and cures on the physical, emotional and mental level. Although it is a very complex and profound teaching and practice, it is very easy to get started helping yourself, family, and friends.

We will learn the basic principles of homeopathy and how to address the most common daily health challenges. In every session, we will dedicate one third of the time to your questions and discussion of your topics of interest.
